

## SAVE THE CHILDREN

We work to ensure every child attains the right to survival, protection, development and participation.

### A PARTNERSHIP THAT IS FEARLESS FOR CHILDREN

#### Workplace Giving with Save the Children

Support Save the Children with low cost, stable funding through Workplace Giving

**1 in 6** Australian children and young people grow up in poverty

#### > Education

Save the Children runs programs around the world dedicated to helping girls and boys access an education. Whether it's in a remote part of the world, in a refugee camp or right after a disaster, we make sure children can continue to learn in a safe and positive environment.

#### > Child Protection

Our evidence-based child protection programs operate throughout Australia and 20 other countries worldwide. Donations could help us provide much-needed care for children that includes education, health and protection from abuse, neglect and sexual exploitation.

#### > Health

Our priority is ensuring all girls and boys grow up healthy. We have developed a low-cost healthcare model which has successfully improved the health of children and families, and reduced mortality rates, in many countries around the world.

#### > Humanitarian Response

When conflict strikes, we're often amongst the first to arrive and the last to leave. We provide life-saving aid to children affected by war and disasters, whenever and wherever children are in crisis.

#### > Climate Change and Disaster Risk Reduction

We work with children to increase their resilience and help them reduce risks of future disasters for themselves and their communities. Donations could go towards helping children adapt to climate change and become more resilient to natural and man-made disasters.

**OUR VISION IS A WORLD IN WHICH EVERY CHILD ATTAINS THE RIGHT TO SURVIVAL, PROTECTION, DEVELOPMENT AND PARTICIPATION.**

#### SAVE THE CHILDREN AT A GLANCE

#### What we do

Every child deserves a bright future. So we work hard to make sure nothing stands in their way. We go to the toughest places to save children from earthquakes, cyclones, conflict and disease. Where children are being exploited, neglected or abused, we protect them from harm. We won't stand for it, and nor will our supporters.

#### How we do it

We deliver evidence-based programs that reach children, families and communities. These programs focus on health, education and protecting children.

We work in over 200 locations across remote, regional and metropolitan locations, delivering services to vulnerable children and youth. Internationally, we implement programs in 120 countries in Asia, Africa and South America.

Save the Children is the world's leading independent organisation for Children.
